

## **SNAG Photo Submission Guidelines**

### **Image Quality**

- Images must be large and good quality. Generally, 300 dpi works great.
- Artwork should be photographed on a solid or gradient background or on the body with a clean background. White backgrounds are preferred.
- Artwork should be clearly interpreted through the photographs. Choosing the best perspective and providing one or two detail shots is recommended.

### **Video**

- All videos must be externally hosted through YouTube, Vimeo, Animoto, or Wistia.

### **Artwork + Artist Information:**

- Dimension must be listed in decimal points
- Medium/Media must be formatted as follows: First material is capitalized, all following materials are lowercase, with the exception of proper nouns or brand names.  
Example: *Sterling silver, copper, New York Times newspaper clippings, Elmer's glue, acrylic.*
- Photographer must be listed by full name. "Photographed by artist" can be used in instances where the work was photographed by the artist.

Disclaimer: The Exhibition Planning Committee reserves the right to refuse publication of any image or artwork that does not meet the standards.
